

Project: British Museum World Conservation & Exhibition Centre

Architectural

Sainsbury Exhibitions Gallery with Brocklebank 16/5 aluminium mesh ceiling. The stunning wire mesh ceiling for the 1000m2 exhibition hall perfectly complements subtle lighting while effectively concealing vents, diffusers and ducting, and providing easy access for maintenance. The Locker Architectural installation team successfully tackled a number of challenges to complete the job within the scheduled timescale.

Material:
Brocklebank 16/5
Pre-crimped Wire
Mesh

Installation:
Suspended ceiling
panels and
extrusion
